

Photo sensor

Motion sensor has adjustments for motion sensitivity, time delay, and photo control

3-Head Security Lights with Sensor

Fully adjustable passive infrared motion sensor. Ideally for use as security lighting while saving energy. Light will only go on when its dark and motion is detected.

WATTS	VOLTAGE	LUMENS	COLOR TEMP
36W	120V AC	3090	5000K

ELECTRICAL SPECIFICATIONS:

- Voltage: 120V AC
- Wattage: 3 12-watt heads
- With 240D PIR Sensor

LIGHTING SPECIFICATIONS:

- LED type/brand: Philips Luxeon M
- Total lumens: 3090 (1030 Lumens per head)
- Color temperature: CW 5000K
- Color rendering index: >82
- Beam angle: 120°
- Time adjustability: 10sec-10min (once light turns on)
- Motion detecting eye angle: 240°

HOUSING SPECIFICATIONS:

- Die-cast aluminum construction
- Tempered glass lens
- Damp locations

MOUNTING:

- Sensing adjustability: From 7feet to 59feet

SPECIAL FEATURES:

- Lens are made not to fade or turn yellow
- Wide forward throw distribution

WARRANTY: 7 years

COLORS: Bronze, White

CERTIFICATIONS: UL/cUL
