

DOWNLIGHT 4INCH

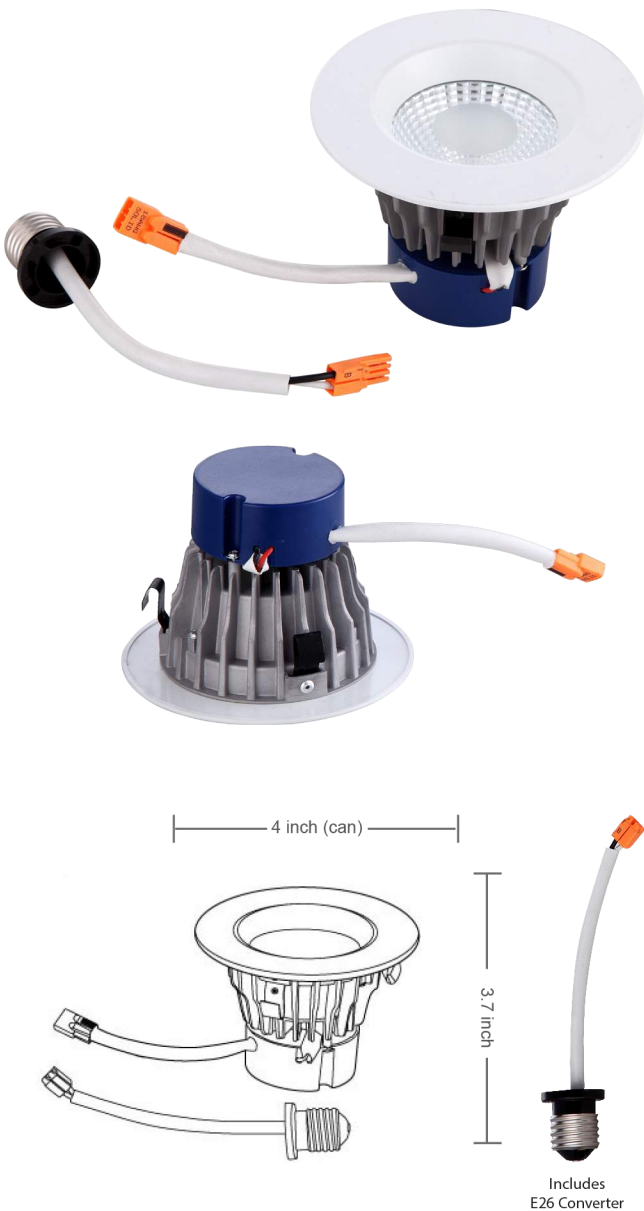

The retrofit reflector downlight surpasses most other recessed lights on the market. Why Reflector? Achieve a higher lumen output with the reflector mirror technology. The reflector in the middle helps avoid any glare a standard clear lens downlight would illuminate. The reflector trim has an aluminum heatsink for efficient heat dissipation, and a state of the art LED driver which gives it excellent dimming performance. At 850 Lumens, and fully dimmable, you have plenty of light when desired. The light turns on instantly, and is not affected by frequent on/off switching.

Applications:

- Recessed Downlighting
- New Construction
- Commercial Lighting

Product Information:

- Increase energy savings and shorten payback period
- High intensity: ready to replace existing 75w halogens
- Title 24 (Ideal) Connector Plug
- Dimmable: Compatible with most dimmers down to 5%
- Fits most 4inch cans
- Chip: Luminus XNOVA COB
