

## PL LAMP GX23 HYRIBID

EnVision LED has manufactured one of the most all around functional GX23 replacement lamps in LED. With a full 360° spectrum, replace existing fluorescent GX23 lamps by plugging it into the existing ballast or choosing to bypass the ballast in the same bulb. Users may choose to use it with the existing ballast at first, then bypass the ballast once the ballast goes along with enjoying up to a 25,000 hour life span.

### Applications:

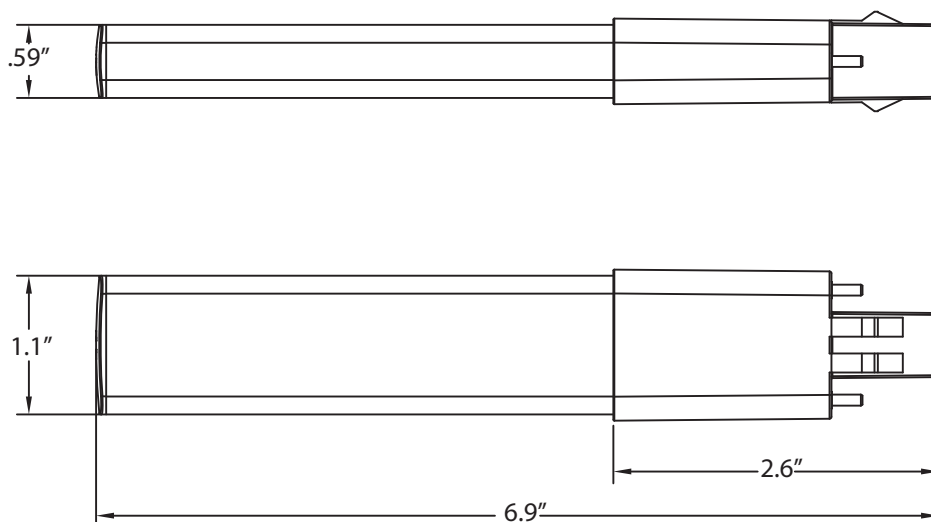

- Recessed Downlighting
- Security Lighting
- Sconces
- Residential and Commercial Use

### Product Information:

- Install using existing ballast or bypass the ballast
- Ready to replace existing 13w fluorescent
- Compatible with existing: GX23, GX23-2, GX23D, GX23D-2
- This lamp is not dimmable
- 5 Year Limited Warranty
