

G9 5W DIMMABLE

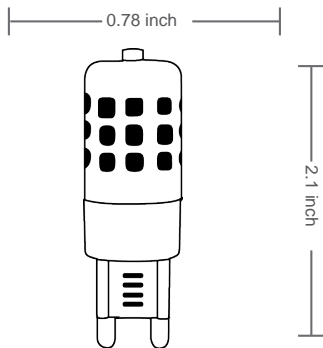

The EnVision LED G9 bulb in LED brings lighting to the next level. This G9 bulb provides a high CRI >90 and light output that will add shine to the application it is being used in. Our newest G9 features a 450lm efficiency, a wider beam angle, and is dimmable. Enjoy watching your energy bills fall, while also saving on replacement costs, as our G9 last up to 25,000 hours.

Applications:

- Chandelier Lighting
- Accent Lighting
- G9 Base Fixtures
- Commercial and Residential Lighting

Product Information:

- Increase energy savings and shorten payback period
- High Lumen: replace existing 40W halogen
- Same size as halogen G9 bulb
- Dimmable with most dimmers including: Lutron Diva and Skylark Series
